FREE 15 MINUTE MINI CONSULTATION

Our mission is always to keep you informed.

Candover Clinic recognise the increasing emphasis cosmetic patients now place on quality and safety so we have created a new cosmetic service with a difference.

Key to this approach is ensuring all our patients are fully informed throughout their cosmetic treatment journey with us. We emphasise this by offering every potential patient a free mini consultation with our Specialist Nurse Practitioner and the patient's choice of Consultant.

Mini consultations are offered to all potential patients. They are typically shorter than a full consultation and are intended to provide all the information initially required, it is an opportunity for any questions to be asked. If our patients decide to proceed they will normally then undertake a full and detailed consultation prior to any treatment.

All mini consultations are offered free of charge, with no obligation at a time that is convenient to you.

Candover Clinic hereby offers you a free Mini Consultation with a Specialist Nurse Practitioner and a Consultant of your choice. This Mini Consultation will be free of charge and shorter than a full consultation. You will be provided with preliminary information about treatments we provide and will have an opportunity to ask any questions you may have at this stage. Please note that no formal, clinical assessment will be carried out during this treatment. Should you decide to proceed with a treatment of your choice, you will be booked in for a full and detailed consultation which will require clinical assessment. The surgeon will advise you of the cost of the consultation. In general, only once such a full consultation is complete will you be able to receive any treatment.
